Real Solutions

PROUT

PROUT = PROgressive Utilization Theory

- is a socio-economic approach synthesizing physical, mental and spiritual dimensions of life
- has the goal to provide guidance towards a truly progressive human society
- provides viable alternative to outmoded capitalist and communist socio-economic paradigms
- seeks a harmonious balance between economic growth, social development, environmental sustainability and between individual and collective interests
- combines the wisdom of spirituality with a universal outlook and the struggle for self-reliance
- starts movements with thinkers and social service activists, stimulating a new civilization discourse, planting seeds for a new way of life

Spirituality and Progress

that leads to self-realization and qualities including compassion and love for all beings

Basic Necessities for All

- food, clothing, education, health care and shelter are the birthright of all, to attain highest human potential

Economic Democracy

- local planning, cooperatively managed businesses, local control of resources and key industries

Leadership

by example, morally principled and dedicated to serving all as part of their spiritual effort and personal progress

Freedom

to acquire and express ideas, creative potential and inner aspirations, which will strengthen the collectivity

Cultural Diversity

for universal fellowship, for the protection and cultivation of local culture, language, history and tradition

Women's Rights

- actively seeking economic, social and spiritual empowerment - protecting against all violence and exploitation of women

Science & Technology

- through their proper use, more time is free for cultural and spiritual pursuits, not for profit, and exploitation

World Government

with a global bill of rights, constitution & common penal code to guarantee rights of all individuals and nations

"As poverty is the main problem in the world today. PROUT gives top priority to opposing economic exploitation, as this affects the livelihood and existence of the people."

Prabhat Ranjan Sarkar,
founder of PROUT
